Indonesia

Food and Agricultural Import Regulations and Standards - Narrative

FAIRS Country Report 2013

Approved By:  
Thom Wright

Prepared By:  
FAS Jakarta

Report Highlights:  
This report provides updated technical information for requirements and regulations on food and agricultural products as are currently required by the Government of Indonesia (GOI). Sections Updated are part of section I, II, IV, VI, VII, IX, X, APPENDIX I, II, and IV.
FAIRS Country Report 2012 is still valid. FAIRS Country Report 2013 provides updated information on part of section I, II, IV, VI, VII, IX, X, APPENDIX I, II, and IV.

Section I. Food Laws:

There is one significant piece of legislation concerning food and agricultural imports in addition to the legislation stated in FAIRS Country Report 2012:

Act Number 19 of 2013 concerning Empowering and Protection Farmers

On July 9, 2013, Indonesia’s House of Representatives passed a new law (No. 19) aimed at empowering and protecting farmers. Certain provisions of this law could introduce new trade barriers such as import duties, bans on ports for certain imported agricultural products, and quality requirements for imported agriculture products. Besides that, government policy makers are of the view that expansion of modern retailers must be limited, particularly in major agricultural production areas.

Section II. Labeling Requirements:

A. Requirements for Other Specific Labeling Requirements

ORGANIC
Processed foods that meet the organic processed foods requirements may use the words organic and Indonesia’s organic logo on their labels as below. Foreign organic logos can be placed next to the Indonesian logo.

HEALTH MESSAGES, SUGAR, SALT AND FAT CONTENT INFORMATION IN PROCESSED FOOD AND FAST FOOD
The Ministry of Health (MOH) issued regulation No. 30/2013, requiring producers of processed foods for commerce to provide sugar, salt, and fat content information and a health message on the label. The rule will be regulated by a Ministerial Regulation.

Health messages in the label should read “consuming more than 50 grams of sugar, 2,000 milligrams of Sodium, or 67 grams of fat per person per day increase the risk of hypertension, stroke, diabetes, and heart attack”.

This regulation will be implemented in April 16, 2016.
Section III. Packaging and Container Regulations:

No Updated information.

Section IV. Food Additives Regulations:

Any person producing food for distribution is prohibited from using any material as food additives which are prohibited or which exceed the maximum threshold limit. The GOI shall further determine the materials which are prohibited and or permitted in food production or processing activities, as well as the maximum threshold limit.

MOH regulation No. 033/12 states that food additive production, importation and circulation require a distribution license from the Head of the Indonesian National Agency for Food and Drug Control (BPOM). There are 27 groups of food additives and each group has several types of food additives. The list of permitted food additives can be obtained in attachment I and prohibited food additives list in attachment II. The head of BPOM has released maximum limits of the use food additives in its regulations No. 4 to 25/2013 and No. 36 to 38/2013.

Other regulations concerning food additives include the BPOM Decrees of 2008 and 2004, MOH Regulation of 1999, and the Director General (DG) for the Control of Food and Medicine Regulation of 1991 and Decree of 1990.

A food additive product from an animal source must also have a certificate of conformity with Islamic purity, "halal." That certificate is issued by the responsible authority in the country of origin.

Section V. Pesticides and Other Contaminants:

No updated information.

Section VI. Other Regulations and Requirements:

PRODUCT REGISTRATION

Registration Procedure

There are two kinds of registration assessments:

1. General Service: the assessment of medium and high-risk food products and food additives, in accordance with the established time and procedure.
2. Rapid Service: the assessment of low-risk food products and food additives with a faster decision, in accordance with the established time and procedure.

Requirements for imported products:
Administrative Requirements

- Importer Registration Number (API) or Trade Business License (SIUP) and audit results of distribution facilities.
- Letter of Appointment /Authorization from company of origin.
- Health Certificate/Free Sale Certificate issued by the competent authority in the country of origin.

Technical Requirements

- List of ingredients
- Manufacturing process or certificate of GMP/HACCP/ISO22000
- Certificate of analysis of finished product (chemical and microbial contaminants, certain food additives, etc.) issued by accredited laboratory
- Information of shelf life
- Information on production code
- Label design (color)

Additional Requirements

- Trademark Certificate (for product with ™ and or ® logo on the label)
- Product Certificate of Indonesia national Standard (SNI) (for SNI-mandatory products: mineral water, wheat flour, iodized salt, cocoa powder and refined sugar)
- Organic Certificate (for organic products)
- Status on GMO-Free status (for products using soy, maize, potato, and tomato). Product derivatives which have undergone multiple refining processes in high temperature such as fat or oil (including lecithin) do not need non GMO statement.
- Statement on Food Irradiation (for irradiated products)
- Appointment Letters as Registered Importer for Alcoholic Beverages
- Other scientific reference to support any claim in the label

Timeline

Timeline for the issuance of Registration Approval or Refusal based on the type of food as follow:

Figure1. Indonesia: Flow Chart of Food Registration Process in BPOM
ENTRY PERMIT (SKI)
BPOM issued regulations No. 27/2012 and 28/2013 on controlling imported food and food ingredients to revise former regulations issued in 2008, 2009, and 2011. The regulations require importers to obtain an entry permit (SKI) in order to release the products at customs. To obtain the SKI, an importer must provide data and documents as explained in FAIRS Report 2012. The imported must have at least 2/3 shelf life remaining at time of export.

Section VII. Other Specific Standards:

PROCESSED ORGANIC FOOD
On May 2013, Ministry of Agriculture (MOA) issued regulation No. 64 on organic agriculture system. The regulation will be implemented one year from the date it of its legislation.

Based on MOA regulation 64, imported organic food must be accompanied by:
- Transaction certificate issued by the Organic Certification Institute (LSO) that has been certified by National Accreditation Committee (KAN) whether it is a domestic LSO or foreign LSO domicile in Indonesia. The LSO must perform certification of the business unit in the country of origin.
- A health certificate or certificate of sale issued by an authorized institution in the country of origin.
The 2008 BPOM regulation stated that organic fresh foods must contain at least 95% organic fresh food from the total volume or weight, excluding water and salt content. Water and salt content are water and salt added at the time of processing. Food additives and other materials permitted in organic processed foods are attached to the regulation. Raw materials, food additives, other materials and organic processed foods shall not be treated with irradiation and not be derived from genetically engineered products.

Section VIII. Copyright and/or Trademark Laws:

No updated information.

Section IX. Import Procedures:
Importers of processed food products must obtain an import permit before product is shipped to Indonesia. There are three ministries responsible for issuing the permit:

1. Certain processed horticulture products:
Importers of certain processed horticultural products (to include items such as jams, fruit juices, and french fries) must obtain a recommendation letter from BPOM before they can apply for an import recommendation (RIPH) to the MOA. Food processors and manufacturers must receive a technical recommendation from the MOI as a prerequisite to obtaining a RIPH. The RIPH should then be submitted to the Ministry of Trade (MOT) to get the import permit (SPI). However, imported fresh horticultural products only need a RIPH form MOA and SPI from MOT.

Every shipment of processed horticulture products need an entry permit issued by BPOM (SKI) and the products in retail packaging must have an ML number.

2. Certain animal based processed food products (includes dairy):
The MOA is responsible for issuing a letter of recommendation (RTK) before the importer obtains the import permit (SPI) from the MOT. Before applying for the RTK, the importer must get a recommendation from the Head of BPOM. Imported raw meat only needs an RTK form MOA and an SPI from MOT.

Every shipment of processed horticultural product needs an entry permit issued by BPOM (SKI) and the products in retail packaging must have an ML number.

3. Remaining processed food products:
An entry permit (SKI) from BPOM is the only permit needed for the remaining processed food products, food as raw material, and food additives (see explanation about SKI under ‘OTHER REGULATIONS AND REQUIREMENTS’ Section).

DAIRY PRODUCTS
As of December 2013, there are 83 U.S. dairy establishments approved by the MOA for export to
Indonesia. Dairy establishments wishing to export to Indonesia should work with an importer to apply for establishment approval with Post assistance.

On August 30, 2013, the Indonesian Ministry of Trade issued regulation No. 46/M-DAG/PER/8/2013, “Import and Export of Animal and Animal Products.” The regulation came into effect on September 2, 2013. The new regulation stated that imports of animal products, such as NFDM and whole milk powder, can only be performed by a company that has obtained an import permit from the Ministry of Trade. The import permit will only be issued after the importer obtains a recommendation. The import permit application must be accompanied by a recommendation from the Head of the Agency of Drug and Food Control (BPOM) and a recommendation from the Minister of Agriculture. An import permit is valid for three months commencing from the date of issuance of the import permit.

In the case where there is a risk of the spread of zoonotic disease from the exporting country, the Ministry of Agriculture will issue a decree prohibiting animal product imports. Previously issued import permit will be declared invalid, (as per the decree).

For imports of dairy products from the United States, a Free Sale Certificate or Health Certificate from the U.S. Department of Agriculture (USDA)/Agriculture Marketing Service (AMS) must be provided to the Indonesian dairy importer in order to obtain the BPOM recommendation.

**FRESH FRUITS AND VEGETABLES**

Indonesia’s Ministry of Agriculture and Ministry of Trade have revised the import policy for horticultural products through MOA Regulation No. 86/2013 and MOT Regulations No. 16 & 47/2013. Key changes include the stipulation that registered importers of horticultural products must import 80% of the total allocation within a six month period. Chili and shallot imports will be subject to a reference price system.

An Import Permit (SPI) will be issued by the MOT after getting the Import Recommendation (RIPH) from the Director General of Processing and Marketing of Agricultural Products (P2HP) of the MOA for horticulture products. In order to submit the application to obtain an RIPH, the importers must have an import approval from the BPOM for processed horticulture products. MOA will no longer issue volume allocations. However, the Ministry of Trade (MOT) will determine import volumes through Import Permit (SPI). RIPH is valid for one company per period (semester). The regulation also stated that imports of horticultural products can only be conducted by registered importer of horticulture products (IT).

The required documents for obtaining and RIPH for fresh horticulture products, as stated in the technical requirements, include good agricultural practices (GAP) certificate or farm registration, and packing house registration. All documents must be translated to Indonesian language.

- **Pre shipment inspection**

The GOI’s latest regulations (MOA Regulation No 60/2012 and the MOT Regulation No. 30 & 60/2012) still require pre shipment inspection for imported horticultural products in the country of origin.
MEAT AND POULTRY PRODUCTS
Indonesia’s ministries of agriculture and trade released new regulations on the import of meat and meat products in late August/early September, 2013, MOA No. 84/2013 and MOT No. 47/2013. Changes include the creation of a reference price system, which calls for meat imports when local retail prices rise above a set level.

An Import Permit (SPI) will be issued by the MOT after getting a Recommendation on Technical Veterinary Public Health (RTK) from the DGLAHS of the MOA for live animal and animal products. Prior to submitting the application to obtain an RTK, importers must have an import approval from the BPOM for processed animal products. Importers must indicate the product being imported, market destination (restaurant, hotel, catering, industry, etc.) in their RTK application. Applications can be made in December, March, June, and September for second, third and fourth quarter permits, respectively.

MOA no longer issues volume allocations. However, MOT will determine import volumes through the SPI process. Certificates of health from exporting countries must indicate the SPI Number.

Only approved meat and poultry establishments are allowed to export the products to Indonesia. There are 17 U.S. beef establishments and 6 pork establishments approved by the MOA. Recent MOA and MOT regulations indicate that whole chickens, turkeys and ducks are allowed to export to Indonesia. There is no clear information on imported whole chicken imports. The importer should work with the exporter to apply for establishment approval through Post assistance.

Quarantine will carry out the physical and document examination as well as the laboratory test for the products when entering the port. All standard level for laboratory test set in the SNI.

On June 17, 2013, MOA issued a decree No. 4390/2013 to lift the ban which was imposed against U.S. MBM, bone-in beef, bone-derived gelatin, and offals on April 26, 2012.

PET FOOD
Indonesia does not have specific rules for pet food imports, and as such they fall under the various regulations for other animal products. As an animal based food, the production facility must be approved by Directorate General of Livestock and Animal Health Service at the MOA before an importer applies for an import recommendation. According to Indonesian regulations, the importer must submit the following documents for the import recommendation:

- A Certificate of Processing: an attestation made by the exporter that the product was manufactured under a HACCP system and that the sanitary SOPs and or HACCP program is authorized by a relevant organization
- A Certificate of Origin
- A Certificate of Analysis
- A Veterinary Health certificate

RELATED GOVERNMENT REGULATIONS

In addition to the Acts listed above there are a number of Presidential Instructions, Ministerial Regulations, Ministerial Decisions and Departmental Determinations that regulate food production, import, and distribution. Below are some of them:

Issued by the Minister of Health (MOH) and the National Agency for Food Drug and Food Control (BPOM)

1. The BPOM Regulation No. HK. 03.1.23.11.11.09695 of 2011 on amendment of the BPOM Regulation No. 00.06.51.0475 of 2005 on Guidelines of Incorporation of Nutrition Value on the Food Label
2. The BPOM Regulation No. HK 00.05.1.52.3572 of 2008 on Adding Nutrition and Non Nutrition on Food Product was replaced by the BPOM Regulation No. HK.03.1.23.11.11.09657 of 2011 on the Requirement of Adding Nutrients and Non-nutrients in Processed Food
3. The MOH Regulation No. 30/2013 on the Inclusion of Sugar, Salt, and Fat Information as well as Health Message for Processed Food and Fast Food
4. The BPOM Regulation No. 1/2013 on the Implementation of E-Registration for Processed Food
5. The MOH Regulation No: 722/MENKES/PER/IX/88 and No.1168/Menkes/Per/X/1999 on Food Additives was replaced by the BPOM Regulation No. 4-25/2013 and 36-38/2013.
6. The BPOM Regulation No. 4/2013 on Maximum Limit of the use Carbonating Agent as a Food Additives
7. The BPOM Regulation No. 5/2013 on Maximum Limit of the use Humectant as a Food Additives
8. The BPOM Regulation No. 6/2013 on Maximum Limit of the use Carrier as a Food Additives
9. The BPOM Regulation No. 7/2013 on Maximum Limit of the use Flour Treatment Agent as a Food Additives
10. The BPOM Regulation No. 8/2013 on Maximum Limit of the use Acidity Regulator as a Food Additives
11. The BPOM Regulation No. 9/2013 on Maximum Limit of the use Firming Agent as a Food Additives
12. The BPOM Regulation No. 10/2013 on Maximum Limit of the use Anti Caking Agent as a Food Additives
13. The BPOM Regulation No. 11/2013 on Maximum Limit of the use Raising Agent as a Food Additives
14. The BPOM Regulation No. 12/2013 on Maximum Limit of the use Glazing Agent as a Food Additives
15. The BPOM Regulation No. 13/2013 on Maximum Limit of the use Anti Foaming Agent as a Food Additives
16. The BPOM Regulation No. 14/2013 on Maximum Limit of the use Carrier as a Food Additives
17. The BPOM Regulation No. 15/2013 on Maximum Limit of the use Thickener as a Food Additives
18. The BPOM Regulation No. 16/2013 on Maximum Limit of the use Emulsifying Salt Carrier as a Food Additives
19. The BPOM Regulation No. 17/2013 on Maximum Limit of the use Packaging Gas as a Food Additives
20. The BPOM Regulation No. 18/2013 on Maximum Limit of the use Sequestrant as a Food Additives
21. The BPOM Regulation No. 19/2013 on Maximum Limit of the use Gelling Agent as a Food Additives
22. The BPOM Regulation No. 20/2013 on Maximum Limit of the use Emulsifier as a Food Additives
23. The BPOM Regulation No. 21/2013 on Maximum Limit of the use Color Retention Agent as a Food Additives
24. The BPOM Regulation No. 22/2013 on Maximum Limit of the use Foaming Agent as a Food Additives
25. The BPOM Regulation No. 23/2013 on Maximum Limit of the use Flavour Enhancer as a Food Additives
26. The BPOM Regulation No.24/2013 on Maximum Limit of the use Stabilizer as a Food Additives
27. The BPOM Regulation No. 25/2013 on Maximum Limit of the use Bulking Agent as a Food Additives
28. The BPOM Regulation No. 36/2013 on Maximum Limit of the use Preservative as a Food Additives
29. The BPOM Regulation No. 37/2013 on Maximum Limit of the use Color as a Food Additives
30. The BPOM Regulation No. 38/2013 on Maximum Limit of the use Antioxidant as a Food Additives
31. The BPOM Regulation No. 42/2013 on amendment of the BPOM Regulation No. HK 03.1.5.12.11.09955 of 2011 on Processed Food Registration
32. The BPOM Regulation No. 43/2013 on amendment of the BPOM Regulation No. HK.03.1.5.12.11.09956 of 2011 on Procedure to Register Processed Food

Issued by the Minister of Finance (MOF):

1. The MOF Decree No. 133/PMK. 011/2013 on Import duty on soybeans

Issued by the Minister of Agriculture (MOA)

1. The MOA Regulation No. 64/Permentan/OT.140/5/2013 on Organic Agricultural System

Issued by the Minister of Agriculture (MOA) and the Directorate General of Processing and Marketing of Agricultural Product (P2HP):

1. The MOA Regulation No. 60/Permentan/OT.140/5/2012 on Recommendation on Importation of Horticulture Products was replaced by Regulation No. 47/2013. Then this regulation finally replaced again by MOA Regulation No. 86/2013.

Issued by the Minister of Agriculture (MOA) and the Directorate General of Livestock Service
1. The MOA Regulation No. 50/Permentan/OT.140/9/2011 on Recommendation Approval for Importing Carcasses, Meats, Edible Offals and Processed Products into the Republic of Indonesia territory was amended by MOA Regulation No. 63/2013. Then this regulations was replaced by the MOA Regulation No. 84/Permentan/PD.410/8/2013.
2. The MOA Regulation No. 96/Permentan/PD.410/9/2013 on Amendment of the MOA Regulation No. 84/Permentan/PD.410/8/2013 on Importing Carcasses, Meats, Edible Offals and Processed Products into the Republic of Indonesia territory
3. The MOA Regulation No. 84/Permentan/PD.410/8/2013 on Importing Carcasses, Meats, Edible Offals and Processed Products into the Republic of Indonesia territory

Issued by the Minister of Trade (MOT):

1. The MOT Regulation No. 24/M-DAG/PER/9/2011 on Provision on the Import and Export of Animal and Animal Product was replaced by the MOT Regulation No. 22/M-DAG/PER/5/2013. Then this regulation was replaced again by the MOA Regulation No. 46/M-DAG/PER/8/2013 on the same subject.
2. The MOT Regulation No. 30/ M-DAG/PER/5/2012 and No. 60/M-DAG/PER/9/2012 on the Provision of Importation of Horticulture Products were replaced by the MOT Regulation No. 16/M-DAG/PER/4/2013 and lately amended with the MOT Regulation No. 47/M-DAG/PER/8/2013.
3. The MOT Regulation No. 61/M-DAG/PER/9/2013 to amend MOT Regulation No. 83/M-DAG/PER/12/2012 on Provision of Certain Imported Products.

Issued by the Minister of Industry (MOI):

1. The MOI Regulation No. 10/M-IND/PER/2/2013 on designation of conformity assessment bodies in the context of enforcement and supervision of Indonesian National Standard (SNI) compulsory for the iodized salt for consumption.
2. The MOI Regulation No. 11/M-IND/PER/2/2013 on designation of conformity assessment bodies in the context of enforcement and supervision of Indonesian National Standard (SNI) compulsory for cocoa powder.
3. The MOI Regulation No. 12/M-IND/PER/2/2013 on designation of conformity assessment bodies in the context of enforcement and supervision of Indonesian National Standard (SNI) compulsory for refined sugar.
4. The MOI Regulation No. 18/M-IND/PER/3/2013 on designation of conformity assessment bodies in the context of enforcement and supervision of Indonesian National Standard (SNI) compulsory for wheat flour as a food ingredient.

Author Defined:
This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Jakarta, Indonesia for U.S. exporters of domestic food and agricultural products. While every possible care has been taken in the preparation of this report, information provided may not be
completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY’S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.
