Report Highlights:

On June 29, 2015, the Ministry of Agriculture and Rural Development (MARD) released Decision 2515/QD-BNN-BVTV promulgating the List of Harmonized System (HS) codes for regulated articles subject to plant quarantine. Decision 2514/QD-BNN-BVTV provides more detail for Circular 30/2014/TT-BNNPTNT dated September 5, 2014. Decision 2515 entered into force on July 1, 2015.

Policy:

In order to implement Circular 30/2014/TT-BNNPTNT issued on September 5, 2014 by the Ministry of Agriculture and Rural Development (MARD) publishing the list of regulated articles subject to plant quarantine in Vietnam (see GAIN report [VM4057](#)), MARD released Decision 2515/QD-BNN-BVTV dated June 29, 2015, promulgating the List of HS codes for the List of regulated articles subject to plant quarantine. This decision was not notified to the World Trade Organization's SPS Committee and came into force on July 1, 2015.

Decision 2515/QD-BNN-BVTV provides a detailed 8 digit HS code List based on Vietnam's current Harmonized Schedule, covering all articles subject to plant quarantine which was promulgated with only a broader category listing in the Article 1 of the Circular 30 as follows:

Article 1. List of regulated articles subject to plant quarantine

1. Plants:
Living plants and living part(s) of plants

2. Plant products:
 - a. Tubers/bulbs, fruits, seeds, flowers, leaves, stems, branches, stocks, roots, bark;
 - b. Broken rice, bran, dried plant meal, raw natural fiber, coconut fiber;
 - c. Starch, powder with plant origin (except dough and modified starches);
 - d. Tobacco stem, tobacco fiber, feed yeast, raw cotton, cotton by-products, rice straw, and aquatic plants;
 - dd. Log, sawn timber, wood pallets, wood chips, sawdust;
 - e. Feedstuff or materials from plant origin for processing;
 - g. Growing media made from plant

3. Mushrooms (except all salted, frozen and canned mushrooms, mushroom yeast)

4. Silkworm cocoon, silkworm cocoon without silk, lac

5. Insects, spiders/mites, fungus, nematodes, bacteria, virus, phytoplasma, viroids, weeds for diagnostics, training, biological control and scientific research

6. Means of conveyance, storage of regulated articles

7. Other objects capable of harboring quarantine pests, subject to confirmation of the Plant Protection Department and to be reported to the Minister of Agriculture and Rural Development for final decision.

8. In the case of export of articles, which are not in the List regulated in this Article, plant quarantine should be carried out subject to requirement of the importing country and all international treaties to which Vietnam is a party.

Articles subject to plant quarantine as broadly defined in Circular 30/2014 and then more specifically defined in Decision 2515 require a plant quarantine inspection by MARD regional Plant Protection Department at the Vietnamese port of entry, a phytosanitary certificate (PC) issued by an exporting country, and a PPD-issued import permit (as stipulated in Article 26 of Vietnam's Plant Health Law), in order to be granted customs clearance in Vietnam.

This List includes various pre-packaged, consumer-oriented, and highly-processed food products of plant origin, many of which pose no or very low risk to plant health in Vietnam.

Some regulated articles in the List (as specified), are waived for plant quarantine (i.e., do not need a PC, import permit, or PPD port inspection) such as all frozen products for immediate consumption under HS headings 07.10, 07.14, and 08.11; packed or canned products of headings 12.12, 18.05, 20.01, 20.02, 2002.90.10, 20.03, 20.04, 20.05, and 20.08; some canned fruit and nut products for immediate consumption under heading 08.11; and products provisionally preserved (for example, by Sulphur Dioxide gas, in brine, in Sulphur water or in other preservative solutions) under headings 08.12 and 08.14. Exemption from plant quarantine is also applied to potato starch in packages less than 2 kg under heading 11.08; finished, processed ginseng root products in cut, crushed, or powdered form in packages for immediate consumption; and some wood products under headings 44.10, 44.11, 44.12, and 44.13. It is uncertain whether or not the exemption from plant quarantine applies to all three aspects of plant quarantine (i.e., PC, import permit, and PPD port inspection).

Through Decision 2515, Vietnam is imposing plant quarantine requirements for many highly-processed food products of plant origin which FAS-Vietnam, MARD, and the U.S. Department of Agriculture have had an ongoing dialogue regarding whether or not such strict import requirements are truly science-based. While the exemptions listed in Decision 2515 provide some differentiation based on plant health risk, Decision 2515 does not go far enough to exclude many highly processed and consumer packaged products which pose little or no risk to Vietnam's plant health.

Although Decision 2515/2015 was not notified to the WTO, the U.S. Government sent official comments for Notification G/SPS/N/VNM/53 – a draft of the Circular 30, in which these broad product categories requiring plant quarantine were outlined. The USG's comments centered on the broad nature of these product categories and the fact that many processed products were being included non-transparently while actually posing little or no plant health risk. The USG did not receive an official response from GVN regarding these concerns.

Post encourages dialogue with Vietnam as we believe requiring a PC for many of the products listed in MARD's Decision 2515 is inconsistent with International Plant Protection Convention (IPPC) standards. The IPPC Requirements for Phytosanitary Certificates states, "NPPOs of the importing countries should not require phytosanitary certificates for plant products that have been processed to the point where they have no potential for introducing regulated pests, or for other articles that do not require phytosanitary measures." (See IPPC Article VI.2 and ISPM 32:2009).

FAS-Vietnam will continue working closely with PPD to clarify the detailed interpretation of regulated articles in this list and to seek enforcement that minimizes the impact on the trade of agricultural products from the United States. Should U.S. exporters receive information about changing or new requirements for plant origin products from Vietnamese importers they should not hesitate to contact aghanoi@fas.usda.gov to inform Post of the situation and help gauge the impact these increasingly strict requirements are having on trade.

Post provides an unofficial English translation of the Decision 2515/QD-BNN-BVTV in this report. Should U.S. exporters of plant and plant origin products have any questions please email: aghanoi@fas.usda.gov.
