RP Bans Poultry Products from Kentucky

Report Categories:

Poultry and Products

Approved By:

Emiko Purdy

Prepared By:

Pia A. Ang

Report Highlights:

On April 13, 2009, the Philippine Department of Agriculture temporarily banned poultry and poultry products from the State of Kentucky due to the detection of low pathogenic avian influenza (H7N9) in Edmonson County.

General Information:

On April 13, 2009, the Philippine Department of Agriculture (DA) issued Memorandum Order No. 14 (MO#14) which temporarily bans exports of all poultry and poultry products from the State of Kentucky. The memorandum order states that the action was based on a report submitted by USDA to the World Animal Health Organization about the occurrence of a low pathogenic avian influenza (LPAI) with serotype H7N9 in Edmonson Country.

In 2008, the United States exported about \$28 million worth of poultry and poultry products to the Philippines.
