Suggested List of National Food Safety Standards for Food Products

Report Categories:

National Plan

Approved By:

Michael Riedel

Prepared By:

M. Meador and Ma Jie

Report Highlights:

On October 10, 2012, the Ministry of Healthy (now the National Health and Family Planning Commission, NHFPC) started reviewing existing standards on quality and safety of edible agricultural products, food hygiene, and food quality, as well as mandatory standards for food-related products. Expert teams reviewed standards in eight categories (food products, physical-chemical testing methods, micro-organism inspection and testing method, procedures and methods for toxicological assessment of food, special dietary foods, food additives, food related products, and good practice in production and operation).

NHFPC has completed review of standards.

Below is unofficial translation of the suggested list of national food safety standards for **Food Products**.

General Information:

It is suggested that national food safety standards will be set/updated for the following food products:

1. Grain
2. Instant noodle
3. Reconstitution grain products (i.e. cereal)
4. Quick frozen flour and rice products
5. Gluten
6. Pasteurized milk
7. Fermented milk
8. Cheese
9. Evaporated milk and sweetened condensed milk
10. Sterilized milk
11. Milk powders
12. Whey powder and whey protein powder
13. Raw milk
14. Modified milk
15. Cream, butter and anhydrous milkfat
16. Process(ed) cheese
17. Lactose
18. Casein
19. Egg and egg products
20. Meat of livestock
21. Poultry meat
22. Cooked meat products
23. Chinese salt-cured meat
24. Collagen casing
25. Algae products
26. Marine products of animal origin
27. Dried sea-cucumber
28. Aquatic products of animal origin

29. Edible fungi
30. Preserved vegetables
31. Edible animal fats
32. Oil seeds for edible use
33. Products of edible oil and fat
34. Edible vegetable oil
35. Concentrated fruit and vegetable juice for food industry
36. Drinks
37. Packaged drinking water
38. Drinking natural mineral water
39. Distilled spirits and their integrated alcoholic beverages
40. Fermented alcoholic beverages and their integrated alcoholic beverages
41. Edible alcohol
42. Bean products
43. Edible soy meal products
44. Bean sprout
45. Vegetable protein for food industry
46. Starch sugar
47. Starch products
48. Starch
49. Fermented sauce
50. Soy sauce
51. Vinegar
52. Salt
53. MSG
54. Sugar
55. Aquatic dressing
56. Canned food
57. Pastry and bread
58. Biscuits
59. Chewing gum

60. Candy
61. Chocolate and chocolate products with cocoa butter alternatives
62. Honey
63. Pollen
64. Irradiated foods
65. General standard of health (functional) foods
66. Nuts and seeds
67. Puffed foods
68. Jellies
69. Preserved fruits
70. Frozen drinks
71. Yeast used for food processing
72. Fruit and vegetable jam (new standard to be developed)
73. Jam of nuts and seeds (new standard to be developed)
74. Salt for the food industry (new standard to be developed)
75. Compound condiments (new standard to be developed)
76. Spicery (new standard to be developed)
77. Tea (new standard to be developed)
78. Cocoa bean and its cocoa products (new standard to be developed)
79. Collagen (new standard to be developed)
